## JUNIOR SOFTWARE DEVELOPER

<https://github.com/A-S95> | <https://www.linkedin.com/in/as-software/>

### PROFILE SUMMARY:

Hello! My name is António Santos and I am currently in the third year of the Programming Course.

I am always looking to improve my technical skills, learn new technologies, and write cleaner, more efficient code. I like solving problems in practical ways and seeing projects move from idea to implementation.

Outside of programming, I have a strong interest in animals and motorcycles, which reflect my sense of responsibility, focus, and attention to detail. I value organization, consistency, and continuous self-improvement in both academic and personal contexts.

### ADDITIONAL INFORMATION:

#### • Technical Skills:

Python, C/C++/C#, JAVA, VB.NET, ASP.NET, SQL & MySQL, COBOL, HTML/CSS, JavaScript, PHP.

#### • Other Skills:

Windows/Linux, PowerBi, Hardware, Gestão de Redes, Modelação 3D.

#### • Interpersonal Skills:

Adaptability  
Collaboration and Teamwork  
Creativity  
Intellectual Curiosity  
Time Management

### LANGUAGES

Native: Portuguese

B2: English

B1: Spanish

### PROFESSIONAL EXPERIENCE:

#### SMART INFRASTRUCTURE DEPARTMENT

*Siemens SA | 2025 (4 Months) - Internship*

- Designed and implemented interactive and multi-page Power BI dashboards, with intuitive and user-centered features to enhance usability and accessibility to support team reports.
- Developed and managed comprehensive data models, aggregating and transforming information from corporate databases and external sources, and created calculated measures and key performance indicators (KPIs) to monitor team performance and efficiency.
- Ensured data accuracy and reliability through rigorous processes of cleaning, validation, and transformation of complex datasets.
- Collaborated closely with end-users to gather requirements, clarify needs, and incorporate feedback, driving continuous improvements in dashboards.
- Supported the successful launch of an international project, working with internal and external teams to align reporting standards and data requirements.

#### TECHNICAL DEPARTMENT

*FNAC Saldanha | 2024 (3 Meses) - Internship*

- Performed quick and accurate diagnostics and repairs of equipment, ensuring the functional recovery of computers, tablets, and peripherals.
- Carried out installations, updates, and configurations of operating systems and applications, as well as performance optimizations and backups, ensuring the integrity of customer data.
- Provided personalized support to customers, both in the store space and in specialized technical support, translating technical terms into clear guidance and practical solutions.

#### INTERIOR DESIGNER AND TECHNICIAN

*ACS Cozinhas | 2019 - 2023 (4 years) - Full Time*

- Creation of detailed 3D drawings and plans using Teowin software.
- Management and maintenance of interior design projects with attention to technical and client requirements.
- Assembly and Preparation.
- Experience with CAD-type software and client communication.

# ANTÓNIO SANTOS

## JUNIOR SOFTWARE DEVELOPER

### ACADEMIC BACKGROUND:

#### IEFP - LISBON

*Computer Programming*

Diploma in Computer Programmer - 2023-2026 (Current)  
Software Development, Programming Logic, Systems Analysis

#### ESCOLA PROFISSIONAL - TOMAR

*Course - Technician in Electronics and Telecommunications 2018*

Focus: Embedded Systems and Programming with Arduino

### DEVELOPED PROJECTS:

#### "PORTFOLIO" PROJECT - 2025

*A project where I place my information, projects, etc.*

- Technologies: HTML, CSS, JavaScript, PHP;
- Development of a portfolio site with dark/light theme;
- Includes personal information, map, and contact form with clean visual and responsive navigation.

DEMO: <https://portfolio-as-azure.vercel.app/>

#### "CINEMA" PROJECT - 2025 (IN DEVELOPMENT)

*Project to view information about movies, such as trailer, release date, direction, and synopsis.*

- Main Page: Presents the main listing of movies, using data from The Movie Database (TMDB).
- Movie Details: Detailed view of each movie's information (synopsis, rating, trailer, etc.).
- Favorites: Dedicated page where the user can save and manage their list of favorite movies.
- Quick Navigation: NavBar component for easy access between various sections.
- Centralized State Management: Use of MovieContext for efficient application state management.
